APRESENTAÇÃO

A edição de "Finanças do Brasil" é uma missão da Secretaria de Economia e Finanças; nela estão contidos dados da execução orçamentária da União, dos Estados, do Distrito Federal e dos Municípios, devendo ser observado que sua continuidade tornou-se possível graças às Prefeituras, ao fornecerem, com brevidade, as Sínteses de Balanço, que contêm grande parte das informações apresentadas neste volume.

A exemplo de "Finanças do Brasil" volume XXVI, esta edição apresenta, sob o título "Principais Itens da Execução Orçamentária", informações sobre cada um dos Municípios.

Cabe, ainda, registrar e agradecer o apoio prestado pelas Delegacias do Ministério da Fazenda nos Estados — por seus titulares e em especial pelos Serviços de Assistência Técnica — e também pelos Tribunais de Contas Estaduais e Conselhos de Contas Municipais, no sentido de agilizar o processo de coleta das informações, concorrendo, dessa forma, para que a Secretaria de Economia e Finanças levasse a termo a importante tarefa de divulgar os resultados financeiros do setor público nacional, relativamente ao exercício de 1982.

Finalmente, ressalte-se o empenho dos Secretários de Economia e Finanças, através do tempo, no sentido de preparar as bases para que "Finanças do Brasil" se consolidasse e atualizasse. Pouco a pouco, num processo integrado e sucessivo de crescimento, os ex-Secretários José Carlos Barbóza de Oliveira, Carlos Augusto Rodrigues de Carvalho, Ary Braga Pacheco, Carlos Henrique Silva Boiteux e Elionaldo Maurício Magalhães Moraes aperfeiçoaram a Síntese de Orçamento e Balanço, o sistema de coleta de dados e a própria publicação, para que hoje, finalmente, se pudessem oferecer aos administradores públicos e estudiosos da matéria informações atuais, dotadas de alto grau de confiabilidade. É a eles que a Secretaria de Economia e Finanças dedica esta publicação.

REINALDO MUSTAFA
Secretário de Economia e Finanças

NOTAS EXPLICATIVAS

1 – A discriminação dos dados em União; Estados e Distrito Federal; Municípios das Capitais; e demais Municípios se deve à sua origem, a saber:

– **União:** dados obtidos dos Balanços da União;

– **Estados e Distrito Federal:** Balanços dos Estados e do Distrito Federal;

– **Municípios das Capitais:** Balanços dos Municípios das Capitais;

– **Demais Municípios:** Sínteses de Balanço; e

– **Brasil:** somatório dos dados obtidos nas fontes citadas.

2 – Quanto ao somatório **Brasil**, cabe alertar o usuário destes dados para que, em sua utilização, evite os erros de "dupla contagem", como, por exemplo, na rubrica "Receita Total". Nesses casos recomenda-se que sejam feitas as deduções pertinentes (através das "Transferências"), consultando-se os respectivos quadros.

3 – SINAIS CONVENCIONAIS ADOTADOS:

... Dado desconhecido;

– Dado inexistente;

0 Dado que não atingiu a unidade adotada na tabela.

4 – O Decreto-lei nº 1.875, de 15 de julho de 1981, facultou aos Municípios com população inferior a cinqüenta mil habitantes a simplificação de sua proposta orçamentária – eliminando-se classificações que não as de receita por fontes e de despesas a nível de categorias econômicas. Por essa razão, as consolidações referentes aos desdobramentos eliminados por esse Decreto incluem apenas os valores de Municípios com cinqüenta mil ou mais habitantes.

5 – Pela razão exposta na nota anterior, as informações contidas no título "Principais Itens da Execução Orçamentária", quando o Município tem menos de cinqüenta mil habitantes, apresentam lacunas, a não ser no caso daqueles que encaminharam à SEF os dados com os desdobramentos exigidos antes do Decreto-lei.
